10th	*Chhindwara, Madhya Pradesh*

Projects

Hiring Portal   January 2024

Developed a comprehensive hiring platform using **React.js** for frontend and backend, **Supabase** for the database, and **Clerk** for Google Authentication. Key features include:

- Candidate and recruiter profiles with customizable details.
- Application tracking for candidates and recruiters.
- Saved/favourite job functionality for seamless job exploration.
- Status tracking for job applications to enhance transparency.

Employee Management System   July 2023

Developed a React.js-based application for task and employee management, ensuring smooth operations.

- Managers can assign tasks, track their status (completed, active, or not completed), and modify details.
- Employees receive detailed task information in real-time.
- Used Context API for state management and local storage for data persistence.

Currency Converter NPM Package   January 2023

Developed a JavaScript-based npm package for real-time currency conversion using a free currency API.

- Fetches live exchange rates and supports conversion between major currencies.
- Designed for easy integration into various projects with minimal setup.
- Published and actively maintained on the npm registry to assist developers worldwide.

Certificates

- AWS Academy Cloud Foundation by AWS, Oct 2023
- Cyber Security Fundamentals by IBM SkillsBuild , Jan 2024

Technical Skills

Java | JavaScript | React js | React Query | Redux Toolkit | Tailwind Css

Achievements / Extracurricular Activities

- Coordinator of Entrepreneurship Club
- Solved 500+ coding question across various platform
